

This document is the translation version of 「第 27 期定時株主総会招集ご通知」 (“NOTICE OF THE 27th ANNUAL GENERAL MEETING OF SHAREHOLDERS”) which is originally written in Japanese. This document is intended for reference-purpose only. In the event of any discrepancy between this translation and the original Japanese document, the original shall prevail. OSAKA Titanium technologies Co., Ltd. (hereinafter “the Company”) assumes no responsibility for this translation or for direct, indirect or any other forms of damages arising from this translation.

Dear Shareholders,

We would like to express our sincere gratitude to all our shareholders for your continued support.

Japanese economy has finally overcome the Covid-19, and it is on a gradual recovery path and showed generally strong business conditions. However, its domestic demand lacked strength due to soaring commodity prices and exchange rate fluctuations. The global economy remains difficult to forecast as the outlook remains fragile, with resource and energy prices continuing to rise on the back of the protracted situation in Ukraine and geopolitical risks in the Middle East, amid a continuing monetary tightening measures in the global financial environment.

“Returning to a strategy of sustainable growth with the Titanium business at the core as the market returns to a growth trajectory” has been set by the Company as its medium-term management challenge. The Company is working diligently to maximise production from its existing facilities, while at the same time tuning them up, to meet the demand for titanium sponge which is now in a transitional stage from a recovery phase to a growth phase. Sales in the Company’s Titanium Business increased as a result of a steady increase in demand for titanium sponge for aircraft applications against the backdrop of a recovery in aircraft demand, together with additional demand for a substitute for Russian titanium in the middle of the global titanium supply chain restructuring.

Although raw material prices and other costs continued to rise, the Company’s performance exceeded last year’s due to cost reductions and improved product prices. The titanium market, which has returned to a growing stage, is expected to continue to expand and the Company is drawing up a plan to increase its titanium sponge production capacity to meet growing demand in a timely manner. The Company will promptly materialise a production enhancement plan to further increase its presence in the titanium market.

With regard to the Company’s another medium-term management challenges, “Strengthening the business structure by promoting growth in the High-Performance Materials business to reinforce profitability and accelerate the growth strategy,” sales volumes of high-purity titanium in the High-Performance business declined in sluggish semiconductor market, but new business, namely spherical titanium alloy powder (alloy TILOP), is growing steadily. The High-Performance Materials business, which also includes SiO anode material for lithium-ion batteries, is expected to grow significantly in markets and has a great potential for growth. The growth of the High-

Performance Materials business will facilitate the transformation of the Company's business portfolio and strengthen the Company's business structure.

In order to achieve sustainable growth and future development of the Company, in addition to the medium-term challenges in both the Titanium and the High-Performance Materials Businesses, the Company will also take on the challenge of innovating its production activities through the active use of IT technologies to promote Smart Factories and of strengthening its human capital to reinforce the foundation of the Company's business. Also, the Company will further enhance its corporate value by promoting various activities to reduce its environmental impact through carbon-neutral compliance.

Based on current performance, the year-end dividend will be JPY 50 per share, which, together with the interim dividend of JPY 20 per share, will result in an annual dividend of JPY 70 per share.

The Company will continue to make every effort to improve its performance and would like to thank you shareholders for your continued support and encouragement.

Yasuaki Sugizaki
Representative Director,
Member of the Board & President

To All Shareholders with Voting Rights:

Yasuaki Sugizaki
Representative Director,
Member of the Board & President
OSAKA Titanium technologies Co., Ltd.
1 Higashihama-cho,
Amagasaki, Hyogo, Japan

Outside Director						
Independent Director						
Reasons for Appointment as a Director who is a Member of the Audit & Supervisory Committee and Expected Roles: Although she has no experience of being involved in the management of a company other than as an outside director, she has been nominated as a candidate for Director who is a member of the Audit & Supervisory Committee because she is expected to provide appropriate advice to the Company and supervise the execution of business from the perspective of legal risk and compliance with law, based on her knowledge and experience as a legal professional.						
Special Notes on the Candidate as an Outside Director: (1) She is a candidate for Outside Director, Member of the Board. In the event that this Item 2 is resolved, and she assumes a post of Outside Director, Member of the Board, the Company will register her as an independent director with the Tokyo Stock Exchange, Inc. (2) In the event that this Item 2 is resolved, and she assumes a post of Outside Director, the Company intends to enter into a liability limitation agreement with her, which limits her liability to the amount specified in Section 425(1) of the Companies Act.						

(Reference) Outline of the Criteria for determining the Independence of Independent Directors

The Company has established criteria for determining the independence of Independent Directors based on the independence standards set by Tokyo Stock Exchange, Inc. Its summary is given below. For more information, please visit our website at <https://www.osaka-ti.co.jp/ir/pdf/cg.pdf>. (Available only in Japanese language)

In order to be considered independent, an outside Director of the Company must not fall under any of the following categories.

- (1) Spouse or relatives within the second degree of kinship to Directors, Members of the Board, or important employees of the Company
- (2) Major shareholders of the Company
- (3) Directors or officers, or employees of the Company's major shareholders or lenders
- (4) Main clients of the Company or their managing officers
- (5) Those who have received payments, donations, or grants from the Company in excess of a certain amount
- (6) Those who have fallen under any of the above categories (2) to (5) in the past 5 years
- (7) Those whose spouse or relatives within the second degree of kinship fall under any of the above categories (2) to (5)

Skills Matrix of Directors (after this AGM)

Name	Full-time/ Outside	Independent Director	Position	Business Unit Management	Finance & Accounting	Governance & Legal Affairs	Global Business	Sales & Marketing	Technology
Junji Kawafuku (Male)	Full-time	—	Representative Director, Member of the Board & President	✓				✓	✓
Satoru Takahashi (Male)	Full-time	—	Director, Member of the Board		✓	✓	✓		
Tadao Araiike (Male)	Full-time	—	Director, Member of the Board					✓	✓
Jun Matsuoka (Male)	Full-time	—	Director, Member of the Board	✓			✓	✓	
Nobuhide Shimamoto (Male)	Full-time	—	Director, Member of the Board (Full-time Audit & Supervisory Committee Member)		✓	✓			
Shigehisa Yamaguchi (Male)	Outside Director	✓	Outside Director, Member of the Board (Audit & Supervisory Committee Member)	✓		✓	✓		
Masashi Murata (Male)	Outside Director	✓	Outside Director, Member of the Board (Audit & Supervisory Committee Member)			✓	✓	✓	
Masami Oishi (Female)	Outside Director	✓	Outside Director, Member of the Board (Audit & Supervisory Committee Member)			✓	✓		

Notes

1. The proportion of independent outside directors on the Board of Directors of the Company will be more than one-third consecutively. (3 of 8 Directors)
2. Key skills (up to three) are indicated in this matrix.

Business Report

(Financial Year ending 31st March 2024)

1. Company Overview

(1) Business Progress and Results

During the year under review, the Japanese economy showed a gradual recovery trend as companies recorded good business results, the flow of people improved due to the easing of immigration restrictions by many countries, and employment and income environment improved leading to a pick-up in domestic consumption. However, the Japanese economy is experiencing high prices for resources and raw materials, including the impact of the weak yen, and the problems of higher cost of living and labour shortages are becoming more apparent. In overseas economies, while there is also a gradual recovery trend, there are still concerns about the economic downturn against the backdrop of global inflation and monetary tightening measures in some countries, as well as stagnation in the property market in China. In addition to some concerns about a slowdown in the global economy, there are also concerns about the effects of fluctuations in the foreign exchange markets.

In terms of the business environment in which the company operated, demand for titanium sponge in the Titanium business further increased, as aircraft demand moved from a recovery phase to a growth phase and the impact of the restructuring of the global titanium supply chain as a result of Russia's invasion of Ukraine continued to exist. In the High-Performance Materials Business, on the other hand, the semiconductor market was in a sluggish and adjusting phase that began in autumn 2022.

In these business contexts, sales for the financial year under review amounted to JPY 55,322 million (up 28.4% year-on-year), operating profit to JPY 8,288 million (up 73.4% year-on-year), ordinary profit to JPY 9,360 million (up 98.2% year-on-year) and net profit to JPY 9,689 million (up 120.8% year-on-year), partly due to the recording of JPY 1,555 million of deferred tax assets.

Titanium Business

For the Titanium Business in the financial year under review, sales of export titanium sponge, mainly for aircraft applications, increased by 38.4% year-on-year due to increased volumes, improved product prices and a weaker yen. Domestic titanium sponge sales, which are mainly for general industrial applications, also remained steady, resulting in a 23.9% year-on-year increase. As a result, sales in the Titanium Business amounted to JPY 52,299 million (up 33.2% year-on-year).

In terms of profit in the Titanium Business, the operating profit amounted to JPY 8,414 million (up 90.2% year-on-year) due to increased sales and production volumes, improved profitability such as improved product prices and operations, softening ocean freight and the effect of a weaker yen, despite the impact of higher energy and resource prices.

High-Performance Materials Business

Sales in the High-Performance Materials Business during the financial year under review amounted to JPY 3,023 million (down 20.5% year-on-year) due to a decrease in sales of high-purity titanium for sputtering targets for semiconductor-related applications.

In terms of loss in the High-Performance Business, the operating loss was JPY 126 million (compared to profit of JPY 356 million a year earlier) due to the significant impact of lower sales of the high-purity titanium.

(2) Capital Investments

Total capital investment in the year under review amounted to JPY 3,655 million. This was mainly for the maintenance and improvement of titanium production facilities.

(3) Capital Procurement

The funds required for capital investment in the year under review were provided by the Company's own funds and borrowings. Stable funding is being secured by various means of funding such as refinancing long-term debt.

(4) Business Results and Asset Trends

(Japanese Yen in millions, except per share amounts)

Item	FY2020 (24th Term)	FY2021 (25th Term)	FY2022 (26th Term)	FY2023 (year-under review)
Sales	17,053	28,549	43,074	55,322
Ordinary profit (loss)	(2,843)	(1,719)	4,723	9,360
Net profit (loss)	(5,083)	(3,112)	4,388	9,689
Net profit (loss) per share	(138.15)	(84.57)	119.27	263.30
Total assets	77,743	76,586	81,544	92,986
Total equity	29,708	26,509	30,474	38,507

Notes

1. Figures in (brackets) indicate losses.
2. Net Profit (loss) per share is calculated based on the average number of shares outstanding during the period.

(5) Issues to be Addressed

The current demand for aircraft has been recovering from the sharp decline during the Covid-19 period and is now moving onto the growing stage. Demand for titanium sponge in aircraft applications has been further boosted by the additional demand for a substitute for Russian titanium in the middle of the global titanium supply chain restructuring in the wake of the protracted situation in Ukraine. Demand for titanium sponge for general industrial applications has also remained strong. However, uncertainty continues in the business environment affected by unstable world affairs, as prices for raw materials, such as titanium ore, remain high and there are also concerns about rising energy prices due to geopolitical risks in the Middle East.

Under this business environment, the Company continues to produce at a high plant utilisation rate to meet the strong demand for titanium sponge, and is pursuing optimum production to achieve maximum production volume. In order to ensure the profitability of the Titanium business, the Company is working on improving product prices and is also working on thorough cost reductions by improving production parameters and optimising operating conditions. Alongside these activities, the Company is promoting Smart Factories using AI and IoT technologies to automate production processes and to improve production efficiency.

As demand for titanium mill products for aircraft applications is expected to grow steadily in the medium to long term, and demand for general industrial applications is also expected to grow, titanium mill product manufacturers are beginning to implement their plans to increase their production capacity. In view of a possible tight supply-and-demand balance in the medium to long term, the titanium supply chain is strongly demanding a stable supply of high-quality titanium sponge, and the Company is accelerating a feasible study to expand its titanium sponge production capacity from the perspective of contributing to the growth of the Company's Titanium Business and the development of titanium industry.

Also, the Company is working diligently to strengthen its business structure and is developing the High-Performance Materials Business to attain the business portfolio it has set out as its future management vision: the Company's second medium to long term management challenge. High-Performance Materials Business products, such as high-purity titanium and spherical titanium alloy powder (alloy TILOP), have been launched in the semiconductor and additive manufacturing markets, where significant market growth is expected in the future. The Company will leverage its distinctive products and technologies to increase its market presence and drive business growth in these areas.

The Company also works on creating new businesses that can express its strengths, such as silicon monoxide (SiO) anode material for lithium-ion batteries. These activities will reinforce the growth strategy centred on the Titanium Business and steadily reinforce the management

foundation of the Company for its stable growth.

At present, the Company is currently working diligently on the following medium-term management challenges.

[Medium-term Management Challenges]

Titanium Business

- ✓ Returning to a strategy of sustainable growth with the Titanium Business at the core as the market returns to a growth trajectory

High-Performance Materials Business

- ✓ Strengthening the business structure by promoting growth in the High-Performance Materials Business to reinforce profitability and accelerate the growth strategy

Company-wide Tasks

- ✓ Restoring a stable growth platform by quickly ensuring financial strength
- ✓ Promoting various activities to reduce environmental load, including carbon neutral compliance
- ✓ Proactively using IT technologies in the production and operational activities

The challenges in each of the Business segments are as follows:

1. *Titanium Business*

1) Strengthening the Revenue Base

- ✓ Improving product prices and sales mix to a level of profitability that provides the basis for continued growth of the Business
- ✓ Modifying the cost structure and contributing to the reduction of environmental impact through the development of innovative technologies
- ✓ Maintaining a stable and competitive raw material procurement scheme and strengthening technologies for the use of less-expensive-low-quality raw materials

2) Pursuing an Optimum Production

- ✓ Maximising the use of production capacity through improving productivity per furnace
- ✓ Improving labour productivity with a better working environment (automation, reduction of workload)
- ✓ Actively introducing AI and other mathematical engineering approaches for the advancement of production technology

3) Materialising a plan to increase titanium sponge production capacity and its start-up

2. High-Performance Materials Business

1) Expanding High-Purity Titanium Business by Strengthening Customer-response Capabilities

- ✓ Strengthening customer responsiveness and increasing market share through strategic products by strengthening the technical-sales capabilities
- ✓ Developing distinctive products that anticipate innovative needs and capture ongoing growth opportunities
- ✓ Further strengthening the profitability by expanding sales of high value-added products and reducing loss costs

2) Strengthening the Business Base of Spherical Titanium Alloy Powder (alloy TILOP)

- ✓ Building a business foundation by fully utilising the alloy TILOP plant
- ✓ Improving the ability to make proposals and deepening cooperation with customers
- ✓ Continuously developing the process technology and bringing differentiated products to market

3) Advancing Commercialisation of SiO Anode Materials for lithium-ion batteries (LiBs)

- ✓ Advancing commercialisation through attentive and swift response to customer needs
- ✓ Starting commercial production and strengthening the business promotion
- ✓ Developing new products and studying the possibility of business expansion

4) Continuous Efforts to Create “High-Quality Menus”

- ✓ Searching for new businesses that utilise our proprietary technologies and studying their commercialisation
- ✓ Supporting the commercialisation review process for new businesses through additional management resources
- ✓ Pursuing projects that express our strengths

3. Company-wide Initiatives

1) Consolidating the Technology Development Capabilities

- ✓ Consolidating the organisational structure dedicated to the advancement of production process technology and collaboration with external R&D organisations
- ✓ Continuously exploring the possibility for new products and businesses towards business portfolio transformation

2) Strengthening Human Capital

- ✓ Activating the Human Capital Development Project Team focusing on “Recruitment,” “Training” and “Improvement of the working environment”
- ✓ Enhancing measures for human capital development to achieve a systematic training of the coming generation leaders

- ✓ Handing down skills to the coming generation and fostering technical experts through visualisation and sharing of the experience and knowledge of skilled personnel

3) Promoting DX (Digital Transformation)

- ✓ Promoting work restructuring through the renewal of core information system
- ✓ Further stabilising the quality of products and improving the production efficiency by proactive use of accumulated data
- ✓ Planning and promoting the overall concept of Smart Factories

4) ESG Initiatives

- ✓ Contributing to the reduction of environmental load
- ✓ Creating a safe and healthy working environment
- ✓ Developing human resources and promoting diversity
- ✓ Sustaining growth through corporate governance
- ✓ Contributing to a sustainable society through the development and provision of environment-friendly advanced materials

(6) Important Parent Company and Subsidiaries

Not applicable

2. Company Officers

(1) Directors, Members of the Board (As of 31st March 2024)

Position	Name	Responsibilities at the Company and Important Concurrent Positions
Representative Director, Member of the Board, and President	Yasuaki Sugizaki	
Director, Member of the Board, and Senior Managing Executive Officer	Satoru Takahashi	Oversees the Corporate Planning & Finance, the General Affairs & Human Resources, and the Raw Materials & Purchasing Departments
Director, Member of the Board, and Senior Managing Executive Officer	Junji Kawafuku	Oversees the Sales & Marketing and the High-Performance Materials Departments. General Manager of Tokyo Office
Director, Member of the Board, and Managing Executive Officer	Tadao Araiike	Oversees the Safety, Environment & Disaster Management, the Production Control, the Quality Assurance, the Technology, the Testing & Analysis, the Facilities, and the Titanium Manufacturing Departments
Director, Member of the Board (Full-time Audit & Supervisory Committee Member)	Nobuhide Shimamoto	
Director, Member of the Board (Audit & Supervisory Committee Member)	Nae Iijima	Attorney-at-Law and Partner of Dojima Law Office Outside Director (Audit & Supervisory Committee Member), Okura Industrial Co., Ltd
Director, Member of the Board (Audit & Supervisory Committee Member)	Shigehisa Yamaguchi	
Director, Member of the Board (Audit & Supervisory Committee Member)	Masashi Murata	Outside Director, TOA Corporation

Notes

- Directors, Members of the Board, Nae Iijima, Shigehisa Yamaguchi and Masashi Murata are Outside Directors, Member of the Board, as stipulated in Article 2, Paragraph 15 of the Companies Act.
- The Company has designated Directors, Members of the Board, Nae Iijima, Shigehisa Yamaguchi and Masashi Murata as Independent Directors as stipulated by the Tokyo Stock Exchange, Inc. and has registered them at the aforementioned Exchange.
- Director, Member of the Board, Nobuhide Shimamoto has many years of experience in operations of accounting and finance, and has an adequate level of knowledge in those sectors.
- The Company has appointed Nobuhide Shimamoto as a full-time member of the Audit & Supervisory Committee to ensure the effectiveness of the audit.

5. At the 26th AGM held on the 23rd of June, 2023, Tadao Araiike was newly elected as a Director, Member of the Board, and assumed its position.
6. The Company has established regulations in its Articles of Incorporation regarding liability limitation agreements with Directors (except those who are managing directors). Based on these regulations, the Company has entered into liability limitation agreements with all Outside Directors, Members of the Board, that limit the amount of liability to the total of each item in Article 425, Paragraph 1 of the Companies Act, should the Company be harmed as a result of the execution of duties by Outside Directors, Members of the Board, as long as they perform their duties unknowingly and without gross negligence .
7. The Company has entered into a directors' and officers' liability insurance policy, as stipulated in Article 430-3(1) of the Companies Act, insuring all Directors and Executive Officers, with the premiums fully borne by the Company. The insurance policy covers damages that may arise as a result of the insured person being held liable for the performance of his/her duties or being subject to claims in respect of such liability. In addition, the insurance policy has certain exclusions of liability, such as not covering claims for damages arising from intentional violations of laws and regulations or criminal acts, as a measure to ensure that the proper execution of duties is not impaired.

(2) Remuneration for Directors, Members of the Board

1) Total Amount of Remuneration by Category of Officer, by Type of Remuneration, and Number of Eligible Officers

(Japanese Yen in millions, except number of officers)

Category of Officers	Total Amount of Remuneration	Total Amount of Remuneration by Type			Number of Eligible Officers
		Base Remuneration	Performance-based Remuneration, etc.	Non-monetary Remuneration, etc.	
Directors, Member of the Board (of which, Outside Directors)	145 (—)	110 (—)	34 (—)	—	5 (—)
Directors, Member of the Board -Audit & Supervisory Committee members (of which, Outside Directors)	37 (18)	35 (18)	1 (—)	—	4 (3)
TOTAL (of which, Outside Directors)	182 (18)	146 (18)	36 (—)	—	9 (3)

2) Company Performance-based Remuneration

Company performance-based remuneration is determined by taking into account the performance and dividend levels of the previous financial year and the company performance and dividend of the financial year under review. The Company has chosen this index in order to share the same values with its shareholders.

The level of company performance in the previous and the financial year under review is shown in the section “(4) Business Results and Asset Trends” on page 19. The annual dividend for the previous financial year was JPY 35 per share and that for the financial year under review is JPY 70 per share.

3) Matters relating to the Resolution at the AGM on the Remuneration for Directors, Members of the Board

At the 25th AGM held on 22nd June 2022, it was resolved that the remuneration for Directors (excluding those who are members of the Audit & Supervisory Committee) shall not exceed JPY 23 million per month (including JPY 1 million for outside Directors). The number of Directors (excluding those who are members of the Audit & Supervisory Committee) at the close of the said AGM was four (4).

At the 25th AGM held on 22nd June 2022, it was resolved that the remuneration for Directors who are members of the Audit & Supervisory Committee shall not exceed JPY 7 million per month. The number of Directors who are members of the Audit & Supervisory Committee at the close of the said AGM was four (including three (3) Outside Directors).

4) Matters relating to the Policy for Determining the Details of Remuneration for Directors, Members of the Board

The Board of Directors of the Company, at its board meeting held on 25th February 2021, resolved a policy for determining the details of remuneration for individual Directors, Members of the Board (hereinafter referred to as “the Policy for Determining the Content of Directors’ Remuneration”). Following the establishment of the Nomination & Remuneration Committee as well as the transition to “a company with an audit & supervisory committee,” the Policy for Determining the Content of Directors’ Remuneration was revised by the Board of Directors on 22nd June 2022.

The Board of Directors has confirmed that the method of determining the remuneration and the content of the remuneration determined are consistent with the decision-making policy resolved by the Board of Directors with regard to the remuneration for individual Directors during the year under review, and also confirmed that the decisions on remuneration for Directors are made after explaining the policy on remuneration for Directors to the Nomination & Remuneration Committee and obtaining its opinions prior to the Board of Directors’ resolution in accordance with the decision policy. The Company has confirmed that the policy is in accordance with its decision-making policy. The details of Policy for Determining the Content of Directors’ Remuneration are as follows:

a) Basic Policy on Remuneration for Individual Directors (hereinafter referred to as “Remuneration”)

- i. Directors’ Remuneration is paid on a monthly basis.
- ii. Remuneration for Directors (excluding those who are members of the Audit & Supervisory Committee) consists of a fixed remuneration and a performance-linked remuneration which is determined based on comprehensive consideration of performance and dividend in each financial year.

- iii. Remuneration for Directors who are members of the Audit & Supervisory Committee and outside Directors is fixed.

b) Policy on Determining the Method of Calculating the Remuneration for Executive Directors

i. Composition of Remuneration

Remuneration for Directors consists of a fixed base remuneration and the Company's performance-based remuneration linked to the performance achievements.

ii. Method of Calculating Remuneration

1) Basic Remuneration (base remuneration)

The base remuneration is fixed by position, taking into account the level commensurate with the required ability and responsibility.

2) Company's Performance-based Remuneration

Performance-based remuneration is determined by taking into account the Company's performance and dividend levels of the previous financial year as well as the Company's performance and dividend of the financial year under review. In particular, ranges are set according to the level of the Company's performance and dividends, and the amount to be paid for each position is determined for each range. The ratio of performance-based remuneration against total amount of remuneration ranges from 0% to 50%, depending on the level of the Company's performance and dividends.

c) Matters relating to the Determination of the Details of Remuneration for Directors, Member of the Board

The policy on Remuneration for Directors, Members of the Board, (the determination of the level of Remuneration for each individual and the concept of the ratio of performance-linked Remuneration, etc.) is explained to the Nomination & Remuneration Committee. The Committee's opinions are obtained prior to the resolution by the Board of Directors. The amount of Remuneration for each individual Director, Member of the Board, is resolved at the Board of Directors' meeting based on the payment formula determined by the Nomination & Remuneration Committee, taking into account the calculation method, the Company performance, the ratio of performance-based remuneration, and trends in remuneration for other executives and employees.

5) Matters relating to the Determination of the Amount of Individual Remuneration for Directors who are Members of the Audit & Supervisory Committee

The amount of individual remuneration for each Director who is a member of the Audit & Supervisory Committee is determined by consultation among Directors who are members of the Audit & Supervisory Committee.

Notes Unless otherwise stated, figures in this document are rounded down to the nearest unit for monetary amounts and number of shares, and rounded to the nearest whole number for all other figures.

Balance Sheet
(As of 31st March 2024)

(Japanese Yen in millions)
